

## 20 SUGGESTIONS

Take a Nature Hike, searching for birds, bugs, leaves, or rocks. Create a Nature Journal to document the interesting discoveries you make.

Find a local U-pick farm or Farmer's Market and enjoy fresh fruits, vegetables, and berries! Can you imagine how amazing they tasted in the Garden of Eden?

Play outside in the rain as you discuss the hydrologic cycle. ([Job 36:27-28](#))

Dig in the sand at the beach while memorizing [Psalm 139:17-18](#).

Climb a tree! Did you know that the science of dating trees is called dendrochronology? Try saying that five times fast!

Plant a butterfly garden and research the amazing process called "metamorphosis." Only God can make all things new! ([Revelation 21:5](#))

Erect a bird feeder and learn about God's care for us. ([Luke 12:6-7](#))

Create a treasure hunt in your backyard. Read the Parable of Hidden Treasure in [Matthew 13:44](#).

Learn how to skip stones. Discuss how the ripple effect applies to life.

Make paper airplanes. Like the planes in Mr. Eric's [Airplane Kit](#), children who are properly prepared and properly motivated can go a long way for the Glory of God!

Go camping! Try to count the stars. Did you know there are about 100 thousand million stars in the Milky Way alone? Yet God calls them all by name! ([Psalm 147:4](#))

Go to the zoo and imagine what it was like to be Adam and Eve naming all the animals or Noah living with them inside the Ark for a whole year!

Pack a picnic and take it to the park. Discuss ways that God provides food, shelter, and water for the birds, squirrels, chipmunks, and other creatures.

Take a nap! Just as our bodies were designed to need rest, our souls must find rest in Jesus Christ. ([Matthew 11:28-29](#))

Have fun with a cool science experiment using the [Scientific Method](#) to record your results.

Go swimming, fishing, boating, or canoeing at a nearby body of water. Think of all the ways that water is essential to life. In [John 4:10-15](#), Jesus offers living water to the Samaritan woman.

Build something with playdough, clay, pillows, Legos, blocks, wood, or scrap metal. Memorize [Hebrews 3:4](#).

Go fly a kite! Read [Isaiah 40:28-31](#). Discuss flight patterns like gliding, hovering, flapping, and bounding. Research the difference between lift and drag.

Do a research project using [Search Creation](#) for answers or ideas.

Visit a Creation Museum or take a Creation Tour. Find a list of locations at [Visit Creation!](#)

## **WE WOULD LOVE TO HEAR FROM YOU!**

As you get out and explore God's creation, make good use of the technology He has allowed us to invent by taking snapshots or videos of your Science Fun and sending them to us! Who knows? They may even find their way into a new article or video blog on our website!

**Send your photos, videos, and stories to: [comments@creationtoday.org](mailto:comments@creationtoday.org)**
